

CONFERENCE REGARDING UNEMPLOYMENT SITUATION

**Road, Bridge and Irrigation Work Suggested as Remedy.
Request to Change Date of Payment on Soldiers'
Farms. It is Anticipated that Nearly 20,000 will
Need Relief. Committee Appointed to Recommend
Best Means of Distribution.**

No matter whether the unemployment situation develops to a severe extent or not this approaching fall and winter, both rural and city municipalities will not be unprepared to meet it with measures for alleviation.

It is practically certain that some such measures will be in readiness as the result of the unemployment conference held in the Parliament buildings on Tuesday, and presided over by Premier Greenfield, for by the time that

the conference adjourned in the evening as much help as possible during the winter.

That either the Dominion government or the provincial government call a conference of employers of labor with a view to discussing their responsibility regarding unemployment.

The measures debated and adopted by the committee conference as those that should be advocated for the purpose of relief are as follows:

1. Road Work.

That the provincial government, federal government and municipalities jointly undertake to provide as much work as possible.

That the provincial government in-
to how it can be better applied in the
cities.

RED CROSS

DONATIONS

The local Red Cross executive has

**CANADIAN BANKS WILL
HELP TIDE OVER CRISIS**

IN LIVESTOCK CIRCLES

OTTAWA, Ang. 23.—A statement handed out by the department of agriculture this afternoon reads:

"A conference was held in Ottawa between Sir Henry Drayton, minister of finance, Hon. Dr. S. F. Tominic, minister of agriculture, C. A. Bogart, and Sir Frederick Williams-Taylor, Sir John Aird, C. E. Neill, E. C. Pratt and

Both past the allotted three score years and ten, and with only a few days separating their respective ages, Eric August Moller, and his wife, Maria Louise Moller, told the story

As a result of the discussion that took place, assurance was given that no cattle would be sold to feeders and farmers. Owing to restricted markets and a pronounced reduction in prices, Canadian cattle can at present be sold to advantage.

By a curious coincidence the cause of death was the same in both cases, cancer of the stomach being responsible in both instances. On the morning of the 20th inst., one of the cattle was found dead in the creek bed, and was buried on Sunday last.

Mr. Moller, who was 74 years, 6 months and 7 days old, died on Wednesday, August 10th, while Mrs. Moller who died on the Friday following, was aged 74 years, 5 months and 18 days.

Both the deceased were born in Sweden, and were married on October 31, 1875.—Canadian.

FAKES AND FAKIRS

So many worthless hair preparations are flooding the markets today that the public is naturally dubious and skeptical about trying anything else the idea seems to be to get the money easily and quickly, no thought of merit seems to enter into the matter at all.

Intelligent people know that hair cannot be grown on bald heads they also know that grey hair cannot be restored to its original color by rubbing some deceptions on the scalp. When the roots of the hair are dead nothing in the world will make hair grow, also nothing but a dye will restore the natural color to grey hair, science has long since proven these statements.

"JUSS" (Harrington's special Hair Tonic) and Dandruff Eradicator will not grow hair on bald heads (when roots are dead) neither will it restore grey hair to its natural color, nothing but a fake will do these things.

"JUSS" will, however, kill dandruff, stop falling hair and promote a new growth providing there is still life in the roots, so sure and confident are we that "JUSS" will do these things that we sell it on a straight money back guarantee. If it fails to do what we claim all you have to do is to return the empty bottle (after using contents) to the druggist from whom you purchased it and receive your money back without a question.

"JUSS" is a scientific clear amber spirit mixture, delightfully perfumed and a real pleasure to use, made by two druggists with years of experience, it has proven a veritable sensation, more "JUSS" is being sold in Alberta than all other hair tonics combined. Get your bottle today and see what a truly wonderful preparation this is. Remember, it is absolutely guaranteed.

All Wetaskiwin Druggists sell "JUSS". \$2.50 a bottle (a month's treatment).

SCIENTIFIC PRINCIPLES MEDICAL PROFESSION SHOULD BE PLACED BEFORE BUSINESSMEN

CALGARY, Aug. 22—The medical profession has stood too much apart and had not shown the men and women of the country the scientific principles on which it was based; that this should be put before the public business men of today in its proper perspective, was the statement of Dr. Franklin Martin, of Chicago, at the annual medical banquet of the Alberta Medical association, at the Hudson's Bay restaurant on Tuesday evening. In no uncertain terms Dr. Martin described the anti-scientific societies as being "damnable institutions" and further stated that if a family physician took hold of a woman who had developed a sentimental sympathy along this line he could persuade her so as an infirm in ten minutes by presenting her the facts.

Dr. C. Hunter, of Manitoba University, and Dr. Thomas L. Gilmer, dean of oral surgery, Northwestern University, Dental school, Chicago, were the speakers. In the course of his remarks, Dr. Gilmer said that he hoped to live to see the day when dentistry and medicine would again come under one heading.

"The question arises in my mind," said Dr. Franklin Martin in the course of his remarks, "if the medical profession is not taking itself too seriously today? The whole world is in a state of transition and I believe that the medical profession is a little panicky. The profession has been too much to itself and has not pictured to men and women the ideals of the science of medicine."

The men of today will not stand for the "blusky tactics," they will not stand for quacks. They realize that their own business cannot be run on such principles.

The speaker went on to emphasize the need of improving the layman with the fact that there was a scientific reason for everything done by the medical profession.

"The American College of Surgeons," he said, "is determined to make people know the scientific basis of the profession—we want them to know the merit of perfect drinking water supply, sanitary conditions (and remember that it was the work of scientific medicine in sanitary work that made the completion of the Panama Canal possible.)"

"People should be made to know that anti-scientific societies are damnable. If these experiments were not performed on animals they would have to be tried on human patients."

The speaker went on to criticize the quackery which appeared in newspapers. He said that the medical men could stop this filthy matter if sufficiently clear that these things were doing a great harm. He then told of the work which the American College of Surgeons had done in standardizing hospitals in the United States and Canada. Nothing was so important as this, he said, to the surgeon and the physician. This year they would report that about five hundred out of the total of 625 hospitals in the United States and Canada, containing over one hundred beds, each had adopted a standardized system of keeping case records. A similar work was being accomplished among the smaller institutions.

AN ESSAY ON MAN

Man that is born of woman is small potatoes and few in a bill. He rises up today and tomorrow like a ragweed and tomorrow or the next day the undertaker luth him. He goeth forth in the morning warbling like a lark and is knocked out in two rounds and two seconds. In the midst of life he is in debt and the tax collector pursues him wherever he goeth. The banner of life is full of splinters and he slides down with considerable rapidity. He walketh forth in the bright sunlight to absorb the ozone and meeteth the bank junior with a slight grin for \$357. He coucheth home at eventide and encounters a wheelchair in his path. It rises up and smiteth him to the earth and falleth upon him, running one of its legs into his ear. In the gentle springtime he putteth on his summer clothes and a blizzard blizzards striketh him far from home and filleth him with rheumatism and casts him down. In the winter he putteth on winter trousers and a wrap that abasheth therein causes excitement. He starteth down cellar with an elephant and goeth backward and the elephant cometh after and sitteth upon him. He buyeth a watch dog and when he coucheth home after lodge the watch dog treeth him and sitteth near him until rosy morn. He goeth to the horse lot and begetteth his money on the mare and the bay gelding with the blaze face procreeth the haw. He marries a red waitress with a wart on her nose and the next day the herent ancestor setteth forth with a few arrest and great libelance and cometh home to live with his son-in-law.

ENGLAND'S RUSH FOR ANNULMENTS OF MARRIAGE VOWS

Divorce cases in numbers that swamp the courts and dismay the so-called country the divorce law is accompanied by a parallel decrease in marriages. The diminishing petals of the wedding bells is explained by the great cost of living, while the divorce law is described as one of the phases of unrest that have spread into almost every sphere of life. The Lord Chancellor, Lord Biddiscombe, stated in an address to the judges of the Divorce Division that this unrest in domestic relationships is "likely to be felt for a considerable period" and though the present mass of cases may be disposed of by exceptional effort on the part of the courts, he believes "we must confront the future without expectation that we are unlikely to recur to the pre-war figures." At the Easter sitting of the Divorce court, we learn from the press, 2,373 petitions were awaiting trial, of which total 2,000 were undischarged. The London Daily Telegraph notes the Lord Chancellor's remark that nineteen out of twenty of the troubles brought to court were traceable to the manifold influences of the war, and the war is over. Most of us can recall these influences, observes this daily, and proceeds:

"Young men in civil life were called up for service in an unfamiliar sphere; many of them found themselves for the first time in life with a considerable income, and when on leave with time and opportunity for spending it freely. Every social foundation seemed to have been undermined and life depended on uncertain chances. In these conditions thousands of marriages were lightly and sometimes thoughtlessly contracted, on a foundation of little mutual knowledge. The separation allowance was paid to the wife by the government contributed to encourage the stream of young men and women to the altar or the registry office. As the Lord Chancellor has reminded us, many of these marriages have turned out unhappily. In scores of cases the circumstances were the same—the young husband was required to go abroad; his wife left behind in loneliness and in conditions in which it seemed as though nothing mattered. The Divorce Court has been busy untangling thousands of marriages so hastily contracted, and in so doing, with every regard for public policy, it has done a great deal of good."

"The marriage, it is true, is a sacred thing, but it has been promoted, but it has promoted the interests of the nation at large. But is there any assurance that matters will again become normal in this division of the High Court."

The possibility that the war has permanently affected the relationship of marriage in England, weakened its sanctity, and thus undermined the home life, seems to The Daily Telegraph of the present importance, and it hopes an effort will be made to investigate the problem. On the other hand, The Westminster Gazette declares that in the divorce division, it is in many other matters, "war" has become "the accepted euphemism" for a stream of tendency which, as the Lord Chancellor formerly said, "is likely to be a re-creation," and this newspaper adds:

"The marriage, it may fundamentally be much more a consequence of the great war, and by the by the reasonable grounds or by the convention or fear of scandal which prevents men and women having recourse to the facilities which afford relief when it has become unendurable. The alternate in these cases are not a happy union, but lifelong separation and enforced bachelorhood, at all events in outward appearance. Evidence of the weightiest kind was offered to the Divorce commission that this was more and more becoming the effect of the difficulties and anomalies of the English law and the expensive-

HEARTBURN.

This is a very common trouble, especially with those who are hearty eaters. There is a growing tendency of late in the stomach, attended by disturbed appetite, caused by great acidity. Whenever too much food is taken it is liable to ferment and become extremely sour. It is a matter of fact that many people throw up in sour and sometimes bitter.

Keep your liver active by using

MILBURN'S

LAXATIVE PILLS

and you will have no liver troubles. Miss Agnes Cutting, Shallow Lake, Ont., writes: "I have had heartburn for a long time. There was a growing tendency of late in the stomach, attended by disturbed appetite, caused by great acidity. Whenever too much food is taken it is liable to ferment and become extremely sour. It is a matter of fact that many people throw up in sour and sometimes bitter."

Price, 25c. per box. Sold by all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

ness of its process. Save that the poor suffer has obtained some little assistance, this condition continues, but in the meantime opinion is ripening toward a rebellion, and the present state of the divorce courts should warn the legislature that if it will not put the matrimonial law on a reasonable footing, the institution of marriage will suffer a severe shock. If the law does not provide relief, the sufferers will take the law into their own hands, and social opinion will condemn their offense."

Meanwhile, we read in the London Times that the latest report of the Registrar-General shows a sharp decline in marriages. In the final quarter of last year they numbered 13,040 less than in the preceding quarter, and 9,767 less than in the fourth quarter of 1919.

A RECORD VOTE IN WAINWRIGHT

Only 24 out of the 3,200 odd voters enumerated in the Wainwright provincial riding failed to record their votes in the recent provincial election. This is what may be accepted as a record vote.

In 31 polling divisions out of the 43 in the riding every voter polled his vote. The total number of voters enumerated in the riding was 3,273, and out of this number 3,249 voted, leaving only 24 voters unrecorded. This riding will probably hold the record in the province for percentage of voters polled.

The official return of the returning officer, shows that J. R. Love, the successful U.F.A. candidate, polled 1,477 votes, Major Strachan 213, and Capt. G. L. Hudson, former member, 459. Mr. Love's majority over both his opponents was 555.

GOVT. WILL OPEN SOUTH SCHOOLS AT END OF YEAR

Following closely the first announcement that the U.F.A. government of the province would introduce every available means to aid the people in the drought areas of the south Premier Greenfield announces that financial arrangements have been completed for the opening of all schools in Southern Alberta drought areas and for the operation of these schools until the end of the present year.

Schools were closed in many of the drought areas some time ago owing to the inability of the farmers of the stricken territories to provide the necessary financial means for their operation and while the seriousness of the action was everywhere realized, the closing of schools could not be avoided.

the new government executive to re-upon in that Hon. George Hoodley, the minister of agriculture, has completed arrangements whereby it will be possible for farmer sufferers to secure fall rye seed for the planting in affected districts particularly in Southern Alberta.

Another means of assistance to the drought areas has been also decided upon in that Hon. George Hoodley, the minister of agriculture, has completed arrangements whereby it will be possible for farmer sufferers to secure fall rye seed for the planting in affected districts particularly in Southern Alberta.

An Aggressive

Farmers' Government

Premier Greenfield, a practical and successful farmer, has chosen his cabinet. He will lead the Farmers' Party in the next legislature. He places great faith in the ability of the men he has selected to form his cabinet, and in his public utterances has given the impression of a dominant, capable personality. He promises an aggressive, progressive government for all classes of the community.

Every farmer in northern and central Alberta will wish to keep in intimate touch with this movement. The best way to do this is to subscribe for the

Edmonton Journal

The Favorite Daily Newspaper of Northern and Central Alberta.

The Journal has been foremost in publishing full details of the new Farmers' Party and the new Farmers' Government. It was the first newspaper in Alberta to give an authoritative announcement from Premier Greenfield. It has published impartially full particulars of the election that resulted in the return of the Farmers' Government. It is carrying at the present time, on each day, a series of biographical sketches of the U.F.A. members, each accompanied by a portrait engraving. And for a long time, even before there was any likelihood of a Farmers' Government, it has regularly published full details of U.F.A. activities throughout the province. This policy will be continued. You cannot do without the Edmonton Journal if you wish to know all about the Farmers' movement.

THURSDAY, AUGUST 25, 1921

**New Member Has
His Own Troubles**

A. M. Matheson addressed a largely
attended meeting of the U.F.A. mem-
bers in Mundare last week, and among
other things told his audience that
there were a great many men in the
district likely to be disappointed if
they expected him to use his influence
in dismissing all servants at present
in the employment of the government,
to make room for those who had vot-
ed U.F.A. in the last election.

"The new member said that since his
election he had received no less than
seven hundred applications from men
who wanted government jobs, and to
assist in the good work he was ex-
pected to root out telephone exchange
stake and set up new establishments in
their stead. These things Mr. Math-
eson refused to countenance. He would
neither lend himself to the dismissal
of efficient public servants, nor to the
removal of serviceable public util-
ities for doing these things he would
be accomplishing nothing and would
only be adding undue and unneces-
sary expenses on the public purse.

**"CHOLERA
INFANTUM"**

**THE SUMMER COMPLAINT
OF INFANTS.**

The trouble occurs mainly during the
hot seasons, and is confined to infants
between the ages of from four to twenty
months, and generally happens about the
time of the cutting of the first teeth.

Mothers should look well after their
children at this stage and not experiment
with any new and untried remedies,
but procure one having stood the test of many
years on living infants of families.

Dr. Fowler's Extract of Wild Strawberry
has been on the market for 76
years and is acknowledged by all who
have used it to be the best remedy for
Cholera Infantum, Diarrhoea, Colic,
Dysentery and all Bowel Complaints
whether in children or adults.

Mrs. R. R. Alvord, 2 Black St., Halifax,
N.S., writes: "My little girl was very
bad with summer
complaint caused
from cutting her
teeth, and was also
teething at the same
time. I tried several
remedies, but with no
result until I was ad-
vised to try 'Dr.
Fowler's' and
by the time one
bottle was taken she
was all well as ever.
I cannot too highly
recommend it for both children and
adults."

Price, 50c. a bottle; put up only by

Ont.

**DR. FOWLER'S
WILD STRAWBERRY
EXTRACT**

most had the real and acknowledged
advantage of a well organized ma-
chine—which all governments more
or less build up—such as the U.F.A.
are entitled to. The U.F.A. is not
the election of thirty-eight, out of the
sixty-one members of the Legislature
—and only five out of the forty-four
Farmer candidates defeated—nor
standing victory and to treat the result
as an evidence of the fact that
about two per cent of the electorate
in Alberta are so many damn-driven
cattle, with W. H. Wood as the self-ap-
pointed shepherd, may be playing the
political game according to the dic-
tate of out-dated ethics; but it is
certainly an injustice to the rank
and file—and no more applicable than
under the old regime—than those simi-
larly engaged in any other portion of
the great dominion.

Nothing Further From Truth
As a matter of fact, nothing could
be further from the truth. For many
years the Alberta farmers have been
intelligently studying political econ-
omy in an earnest desire to observe
the fundamental right of every British
subject, and, as H. W. Wood is reported
to have said: "All we farmers ask
is a place in the sun—we are not try-
ing to bring on an eclipse." And to re-
gard them in any other light is merely
a manifestation of that bigotry, which
all true politics has too frequently
degenerated into. The standard of
intelligence amongst the new govern-
ment class is probably higher than
among the province; and at any rate
favorably compares with any of its
predecessors, as there is a larger per-
centage of university graduates elect-
ed to the Alberta farmer group than
could be said of any previous govern-
ment in Alberta's history.

An Earnest Boy of Men
One of the fairest statements regard-
ing the Alberta situation was made
recently by J. T. Hall, of Win-
nipeg, associate editor of the Grain
Growers' Guide. Mr. Hall is not only
the editor of the best of the Saskatoon
Phoenix. Mr. Hall said:

"I have never seen a body of men so
earnest or so impressed with a sense
of responsibility as the new
farmer members of the Alberta Leg-
islature. They are thoroughly anx-
ious to act in the best interests of the
province and to do what is best for
the popular welfare.

Method of Selecting Premier
"The manner in which they went
about the selection of a premier is
the best answer to any charge with
regard to influence. They did not con-
sult with the executive of the U.F.A.
on the first day of the sitting, when
other matters beside that of the pre-
miership was being discussed. But on
the second day, when the choice had
finally to be made, the members met
alone and Herbert Greenfield was the
unanimous choice of the meeting.

"It is not fair to those earnest,
unconcerned men, trying honestly
to do the right thing in the only im-
posed upon them, it is not fair to the
U.F.A., and it is an insult to the
new premier, to say that he is the
'champion' for anybody, and it is
positively ridiculous to say that the
selection of Mr. Greenfield amounts
to 'abrogation' of representative gov-
ernment. It is upon the work of the
new government that judgment must
be passed, and it is, in the highest
degree, unfair to discredit it inad-
vertently. However, the U.F.A. is get-
ting used to criticism of that kind
and both it and the new government
will give no more consideration to
such criticism than it does, at the
hands of intelligent people.

H. W. Wood Not a Politician
"Why did not Mr. Wood take the
premiership?" Mr. Hall was asked.
"For the simple reason, I suppose, that
he did not want it," replied Mr. Hall.
Mr. Wood is not a politician, he is an
organizer and educator. He is the
head of an organization the purpose
of which is to better conditions, so-
cially, economically and politically, for
the farmers. The political action of
the organization Mr. Wood regards as
only one phase of its activities and he
is concerned with its activities as a
whole. He wants his members thor-
oughly to understand the nature of
distinction upon the responsibility of
the Alberta organization and is in-
terested. He realizes that no organiza-
tion unless it is democratic can be
permanent as it is top-heavy. "We
must build from the bottom up," he
declares, "and not from the top down."

Largest Size of any Medicine in the World

This is why so much stress is laid in
the U.F.A. upon the Locals and Mr.
Wood certainly succeeded, not only in
the U.F.A. but in the province, in the
of great strength, but in which there
is an intellectual activity, a genuine
desire to build on knowledge, that
contains genuine promise for the de-
velopment of real democracy.

Not At Beck and Call
"It simply is not true that the new
members of the Legislature, as at
the beck and call of the U.F.A. ex-
ecutive. Not even the Locals of the
U.F.A. are that and no one who under-
stands the nature of the Alberta far-
mer's organization could make such a
statement. The members are respon-
sible to their respective constituency
organizations and the recall provision
applies to the member and the consti-
tuent convention. The U.F.A. is not a
dictatorship; it is simply an adminis-
trative body, charged with carrying
out the plan and policies adopted by
the organization's annual convention.

"As in Ontario the organization re-
serves freedom to criticize the legisla-
ture and government; and this, of
course, makes for a much keener in-
terest in public affairs and stimulates
the intellectual activity of the Locals;
a supremely desirable thing. If we are
to have a progressive democracy, The
'Alberta Idea' as it has sometimes been
described, is to secure an active orga-
nized group of people which can ex-
press the growing and developing ideas
of the members; first, through discus-
sion in the Locals and then through
the constituent province; and at any rate
touch and through the process
evolving plan of action along lines
to better, not only the condition of the
farmers, but the condition of society
as a whole.

Accept Idea of Group Process
"It is because they accept this idea
of the group process that the Alberta
farmers have been charged with seek-
ing class benefits. But nothing could
be further from the truth. Because
they accept this group idea the new

members are pledged to carry out
the system of proportional representa-
tion, so that every substantial group
may submit its views to the legisla-
ture and thus bring to the delibera-
tions of the legislative body the spec-
ial viewpoints of the respective
groups; for the purpose of making
the legislature a chaos of conflicting
opinions, but that intelligent, patient
discussion may evolve an opinion or
plan, acceptable to all and which may
be embodied in the legislation.

"The Alberta Idea"
"There has been considerable mis-
understanding of this Alberta Idea,"
continued Mr. Hall. "And I think
that it should be clearly understood
by the people. The group as a factor
in modern life, is apt by any means a
new idea. It is a subject of discussion
amongst jurists, economists and polit-
ical philosophers and there is quite
an interesting literature on the sub-
ject. Mr. Wood, at any rate, has suc-
ceeded in making it a vital question
among the farmers of Alberta and in
thus stimulating and encouraging in-
terest in every question connected
with better government and better
citizenship and a better world.

"And is not this a creditable achieve-
ment in a world and at a time in which
we hear so much about the influence
and the apathy of the people with
regard to public matters?"

WETASKIWIN ALTA.

Look Out!
Said the little red rooster to the little
red hen: "You don't scratch grub for yer wife
like yer mate!"
Said their last year's chickens as they
ruffed up their backs.
"Run! you two old toots, here comes
the farmer with the axe!"

Grit and dirt!
just about double expenses

**WE GIVE
IMPERIAL
Polarine
MAKES A GOOD CAR BETTER
CRANK CASE
SERVICE**

DIRTY oil can't lubricate properly. Fresh oil put into a crank-
case filled with particles of dirt and road-dust doesn't help
much. Your crank-case should be cleaned and filled with
fresh Imperial Polarine Motor Oil every 1,000 miles or less.

Dirty oil in a dirty crank-case often more than doubles operating
expenses. All sorts of trouble arise from this source. Get full
satisfaction from your motor. Get greater mileage from your
fuel. Eliminate rapid depreciation and, many costly repairs by
employing Imperial Polarine Crank-Case Service from now on.

Many good dealers have prepared themselves to supply a very
efficient type of crank-case cleaning service to the motoring
public. Inquire of your own garage man or consult the list to
the right. All of these dealers are well equipped to serve you.

Look for the Imperial Polarine Crank-Case Service sign. Dealers dis-
playing it use Imperial Flushing Oil—a special cleaning agent
which removes all impurities from your crank-case without affecting
your motor or diluting the fresh oil supply as might be the case if
kerosene (coal oil) were used for cleaning.

Have your crank-case cleaned at your earliest convenience. Employ
Imperial Polarine Crank-Case Service regularly. You will notice a big
and immediate improvement in motor performance; the life of your
car will be materially lengthened and economy in its operation
maintained. The blue Imperial sign denotes reliable crank-case
cleaning service.

F. L. DUNPHY PROPRIETOR

MILLET

The members of the executive board of the Women's Institute from Wetaskiwin, Leduc and Millet respectively met for important business on Saturday afternoon last in the Methodist church.

A. P. Mitchell seems to be having his own times with his "auto-horseless". The going out to the lake was fine, but on his way back it was not such a grand and glorious feeling—for the car refused to budge any further when only within five miles of town, obliging the unwilling Arthur to motore the wind-trail on foot. Most, don't worry! See Mitchell!

Mr. Holmes Eastwood, our popular hardware man and up-to-date undertaker, took a flying trip with his wife last week to Veteran, going via Mirror, Stettler and Coronation, and returning via Hardisty and Camrose. He reports the crops in excellent condition and the immediate country surrounding the Nose Hills, where he has large interests involved, enjoying a very favorable season.

Robert Hayes, who has been renting Sam Morrow's farm, has returned from his visit to Sunny Tennessee and Oklahoma, bringing with him a bride. Congratulations, Robert!

The new bride and groom—Mr. and Mrs. Brinkler, will shortly, at the close of their honeymoon, take up their residence on Munson street.

Clifford Pettigrew, infant son of Mr. and Mrs. Gordon Pettigrew, is very ill with cholera infantum. Their many friends hope for a speedy recovery.

A. J. Heywood's residence is fast nearing completion and he expects to be able to move in in the course of three weeks.

Harvesting is now well under way and the yield is proving to be far beyond early expectations. The Millet Agricultural Society is to be congratulated on the splendid presentation it has been making at year in order that this year might not only eclipse other years, but that it may prove beyond a doubt that a wholly independent fair can meet successfully be carried out.—The list of September will tell. One of the special features of the exhibition is the large and handsome silver cup that A.P. Mitchell is giving for the best 1921 calf in addition to a \$25.00 cash prize. You should see the smile on our genial and able president is wearing. Get a prize list and see the list of sports. The ladies of the Methodist church will serve meals.

LOOKING
BACKWARD

(From The Times 20 Years Ago)

(August 9, 1901)

A serious accident happened at Mossra, Walter Martin, H. G. Murphy, G. M. Mayberry and A. Saunders were returning from the A.O.U.W. picnic. The team ran away, and the tongue of the buggy hit the ground, throwing all four out of the rig. Martin and Murphy had limbs broken, and the two others escaped with slight injuries.

Snipe, plover and duck shooting commences August 23rd.

George Tanton has a large staff of men working on the new store for Compton & Montgomery.

The best sample of oats of the season was brought into the office of H. A. Johnson this week by John Dymak. It measured six feet one inch in length and was well filled with plump kernels.

(August 16, 1901)

"The family of Mr. and Mrs. F. M. Bealito arrived on Monday from F.E.I. About half a cartload of butter and eggs were shipped south on Wednesday's train.

W. P. Miller, D.D.S., a graduate of Washington Dental College, arrived this week to start practicing his profession here.

(From The Times 10 Years Ago)

(August 16, 1911)

"That the Wetaskiwin band so easily accomplished the feat of beating the Red Deer Band in the competition there on July 12th, causes the editor of the Red Deer News to make some sarcastic remarks.

Good progress has been made with the foundation of the new H.C. church. Both political parties in the city are making active preparations for the election.

The Brown Construction Company was the successful tenderer for the new post office here.

R. M. Angus is having a new steam heating plant installed in his opera house.

The Wetaskiwin high school again came off with flying colors at the recent departmental examinations. With the exception of a couple of small schools, which had very small classes the school here had the distinction of being the banner school of the province.

(August 17, 1911)

In the snappiest half game of the season Wetaskiwin defeated a picked team from Edmonton 3-1.

Corp. and Mrs. Michel returned from the Coronation ceremonies. The corporal was one of eighty N.W.M.P. to represent that body.

At a convention of the Liberals, J. M. Douglas was chosen as a candidate for the forthcoming election; and at a convention of the Conservatives, held in Strathcona, Geo. B. Campbell was selected as their standard bearer.

From the appearance of the crops, and the probability of the best harvest in the history of the district, the farmers are naturally well pleased.

August 23rd has been proclaimed a Civic Holiday.

A. McNeill, fire man for the extra gang of the C.P.R., was run over by the morning train, and had both legs amputated close to the thigh. He was asleep when hit.

Calgary, Aug. 19.—Experts engaged at \$100 each to investigate the price of natural gas in Calgary have recommended that the price be raised from 25 cents per 1,000 cubic feet to 50 cents with a fixed charge of \$1 a month for service. Acceptance of this schedule implies a guarantee from the company that an adequate supply will be provided.

NOT TO ISSUE
CENSUS FIGURES
UNTIL OCTOBER

OTTAWA, Aug. 23.—An official estimate as to the result of Canada's "counting of noses" in the Dominion 1921 census, will not be available before about the middle of October, it is estimated by officials of the census department. While some figures as

to certain cities and towns have already been issued, these are subject to revision on account of closed houses and absences, and these may be changed considerably when the final official figures are available.

Census returns are stated to have been coming in very well all along, but there are outlying sections where the work of counting the population was expected to take weeks, or even months, inasmuch as it was necessary

to equip the enumerators with canoe dog sleds and even sea going tugs, in order that they could check up all the inhabitants of the sparsely settled frontiers.

In the meantime, as fast as the returns reach Ottawa, they are carefully checked over by clerks and officials, and every attempt is being made to announce the final population figures at an early date as possible.

A RECORD VOTE IN WAINWRIGHT

Only 21 out of the 2200 old voters enumerated in the Wainwright provincial riding failed to record their votes in the recent provincial election. This is what may be accepted as a record vote.

The official return of the returning officer, shows that J. E. Love, the successful U.F.A. candidate, polled 1877 votes, Major Strachan 913, and Capt. G. T. Hudson, former member, 459. Mr. Love's majority over both his opponents was 155.

TOWN TOPICS

F. T. Kirstein motored to Calgary on Monday on a business trip.
*If you want the best in Children's Photos, try Brown's Studio, 21 Lansdowne street. 16-1n

Messrs. Murray and Frank Ahonsky returned on Saturday from a motor trip to Banff and Lake Louise.

O. H. Romme and family who were on a visit with relatives and friends in the United States, returned home a few days ago.

Mr. and Mrs. Gordon Kaiser and family of Courtenay, were guests at the home of Mr. and Mrs. Hugh Ballin, this week.

Cecil Richards, who was operated upon for appendicitis a short time ago, is convalescing nicely, and is now able to be around.

The Norwegian Ladies Aid will meet at the home of Mr. O.H. Romme, on Friday afternoon, August 26, at 2:30 p.m. Everybody is welcome.

Mr. N. Shaw and family and Mrs. James went out to Pigeon Lake the fore part of the week, where they spent a few days in one of the cottages there.

Plans to form a wheat pool to handle the Canadian crop in 1922 practically have been abandoned, according to information received at Winnipeg.

LORD BYNG OF VIMY, NEW GOVERNOR GENERAL OF CANADA

Removal Notice

TO CITIZENS OF WETASKIWIN AND DISTRICT

Owing to raise of rental and not being able to get a satisfactory lease on my present building, I am removing my Butcher Business one block west next door to the Banner Grocery, which will be Opened for Business on and after October 1st.

Until then the business will be conducted as usual in the Wetaskiwin Meat Market.

It has been my aim to supply meats at a very low price for cash, and by giving my customers a square deal have built up a solid business. I will be able to give as good service in my new location.

I wish to thank my patrons for the way they have supported me in the past and solicit your patronage in my new quarters, which will be clean and sanitary in every way.

My Motto is: "Small Profits and Quick Returns"

Independence on a Fruit Farm

In the heart of the small-fruit country on the north side of Fraser River in British Columbia, where every landowner has his commercial patch of raspberries, small or large, one of the best examples of what a perfectly developed, well-run fruit farm on a small acreage can be, is the Maple Crest Farm at Hatle, belonging to Mr. S. E. Dann. Mr. Dann is an Old Country gardener and was brought up on his father's fruit farm of 200 acres in the fruiting area of the Fraser River. He has over an acre of gooseberries, mostly grown from cuttings which he struck himself, and which are the earliest, "Oregon Champion," the main crop and "Jocelyn," the late ones. There are 1,000 bushes in full bearing which average a gross return of \$1 per bush, more than half of which is clear profit of \$600.

He has over an acre of gooseberries, mostly grown from cuttings which he struck himself, and which are the earliest, "Oregon Champion," the main crop and "Jocelyn," the late ones. There are 1,000 bushes in full bearing which average a gross return of \$1 per bush, more than half of which is clear profit of \$600.

Gooseberries, of course, are far cheaper to grow than strawberries because like all bush fruit they last for a long term of years without needing renewal.

Mr. Dann has over an acre of raspberries, "Cuthberts" and an unknown variety much grown in the district that surpasses even the "Cuthberts" for size and heavy yields. Three tons to an acre is an average crop or 800 crates for which the lowest price is \$4 per crate, so it will be seen that the profits work out much the same as for straw, and raspberries.

There is an acre of loganberries and though these do not bring in such good prices as raspberries, the crop lasts much longer and pickers can pick double the amount in a day, so of what a perfectly developed, well-run fruit farm on a small acreage can be, is the Maple Crest Farm at Hatle, belonging to Mr. S. E. Dann. Mr. Dann is an Old Country gardener and was brought up on his father's fruit farm of 200 acres in the fruiting area of the Fraser River. He has over an acre of gooseberries, mostly grown from cuttings which he struck himself, and which are the earliest, "Oregon Champion," the main crop and "Jocelyn," the late ones. There are 1,000 bushes in full bearing which average a gross return of \$1 per bush, more than half of which is clear profit of \$600.

Floods Every Room With June-like Warmth.

Finlay's Pipeless Furnace is designed and built to furnish comfortable heat to the whole house from one register. The house thus has a Finlay's Pipeless Furnace in every room due to the clean, moist, warm air that it continually circulates. The correct heating of your entire house is an absolute certainty if you install Finlay's Pipeless Furnace, and it keeps your walls cool for storage of goods. Mark this: You can install Finlay's Pipeless Furnace yourself without expert aid. There is only one register—that is the floor. Simply place the unit in the room you wish to heat. You can do the job easily in a day. This is a perfect heating system—scientifically perfect and guaranteed. It will save from 35% to 50% of your fuel. Let us send you full details and letters giving the actual experiences of those who have used Finlay's Pipeless Furnace in their homes. Fill in the coupon and get this information now.

RETAIL BUTCHER MAKES \$14.75 ON ONE BEEF CARCASS

INTERESTING INFORMATION IS
GIVEN TO CALGARY COMMIS-
SIONERS BY DEALER

That a retail butcher in Calgary, says the Alberta, has to wait on 90 people to complete the cut of one side of a carcass for the average Saturday trade and on 120 people for the average weekday trade, and that the average net profit on one carcass is \$14.75 is the statement made by A. Hild, a local butcher, to the mayor and commissioners in connection with their inquiry into the cost of meat in the city. Mr. Hild has compiled a statement of the various cuts of meat and their prices, showing that the total selling price of one side of a carcass figures out at \$36.25, and that the cost price of this is \$21.50, which, after deducting \$2.75 for paper and twine, leaves a profit of \$11.75 for one side of the carcass. Mr. Hild's figures are as follows:

One carcass of dressed beef from a steer weighing 1,100 lbs live weight, is equal to 550 lbs. dressed weight, or 50 per cent. Five cents per pound live weight is equal to 10 cents per pound dressed.

Hind Quarter			
Cut	Pounds	Price	Ttl.
Hind quarter shank	15	\$ 4.12	
Round Steak	25	18	4.50
Brisket	22	25	5.50
T Bone	16	25	4.00
Wing ribs	12	20	2.40
Short	15	15	2.25
Bones and Tripping	12	5	.60
Tripping	21	16	3.35
	120		\$21.50

Average 17 1/2c per pound.

Bones	10	2	.30
	126		\$12.50

Average, 9c per pound.
Selling price, one side
Cost price one side

Gross profit on one side
Gross profit on one steer
Less paper and twine

Net profit \$14.75

HOW LONG SHOULD THE BOYS SLEEP?

Sleep, that great mystery, is most important in the growth of a boy. Yet how rebellious he is when it comes to bed time. To sit up late, is to him, a great privilege, and indulgent parents are many times responsible for the fatigue and nervous restlessness due to irregularity of sleep. Without sleep the brain would soon wear out. Wear and waste always go hand in hand with activity. Sleep helps to renew and rebuild.

Warner thinks the hours of play or work and sleep should be as follows:

Age	Per week	Night
8-9	15	12
9-10	25	11 1/2
10-11	25	11
11-12	30	10 1/2
12-14	35	10
14-15	40	9 1/2
15-17	45	9
17-19	50	8 1/2

We grow mostly during sleep, for then the products of nutrition, which during the day are used in replacing the constant waste of the system, are employed in building up new tissue. A boy eats and sleeps far more in proportion than an adult, and this surplus of nutrition is expended in building up or growing.

There is a tendency to mouth breathing among boys that should be corrected early. "The boy who sleeps with his mouth open not only has disturbed sleep, but disturbs other sleepers, and lets the enemy in that dries up the saliva of the mouth, injures the teeth, discharges the throat and lungs, irritates the nerves and racks the brain. An Indian warrior sleeps and snorts with his mouth shut, and with seeming reluctance opens it even to eat or to speak. An Indian child is not allowed to sleep with its mouth open from the very first day of its existence; the consequence of which is, that while the teeth are forming they take their natural relative position, and forms that healthful and pleasing regularity which has secured to the American Indian, as a race, the most beautiful mouth in the world. The nostrils were made to breathe through, and their delicate and thorough lining is necessary to remove dust and foreign substances, to purify and warm the air in its passage and to stand guard over the lungs, especially during the hours of repose.

Purity, Quality, Economy
The combination of purity, quality and economy has made Magic Baking Powder the Standard baking powder of Canada. Positively contains no alum or other injurious substitutes. Its use insures perfect satisfaction. "Costs no more than the ordinary kinds"

DOCTORS CHARGE LESS FOR THEIR RED CROSS PATIENTS

At the annual meeting of the Alberta Medical Association recently held in Calgary, it was decided that twenty-five per cent of the usual fees will be charged in future in the treatment of cases which are supported by this Junior Red Cross organization. This decision was reached after the reading of a letter from the Alberta branch of the Canadian Red Cross Society by Dr. R. O'Callaghan, of Calgary. The decision was unanimous.

The letter read by Dr. O'Callaghan set forth what the Junior Red Cross was doing in the province. It pointed out that there are over fifteen thousand children enrolled in the society, each of whom has to earn his or her membership fee and any other money which goes to carry on their work. Their efforts, stated the letter, are entirely concentrated on helping sick and crippled children whose parents cannot afford to give them proper medical treatment. Every case is thoroughly investigated. The medical men were told that over fifty children had already been treated in this way, and some wonderful cures recorded. It was further explained that every cent of money that the children subscribe to spend on their patients—all the administration expenses are borne by the senior organization. In the past many of the doctors have been doing this work free of charge, some for half fees, and some for full fees. It was thought better to set a rule as to what should be charged.

WILL FLY OVER ICE TO POLE

CAIRO, Aug. 22.—It is possible that the North Pole may be discovered by airplane. For the first time land machines will be employed in the Arctic regions next year when Captain Roald Amundsen, explorer upon his fourth expedition to reach the extreme north point of the globe. The famous explorer and discoverer arrived in Vancouver recently and delivered an address before the Canadian Club.

Captain Amundsen announced that he will make an effort to realize his theory that by freezing into the ice in the proper currents he may drift into the vicinity of the pole in his ship, the "Fram."

He stated that his last attempt to reach the pole had been frustrated through broken propellers. On the next occasion, however, he would be properly equipped in that direction. Additional equipment would be two airplanes and a complete wireless apparatus.

"The airplanes would be used extensively, he said, especially in necessary scouting work, which would be impossible to do on foot or from the vessel. In this way he hoped to secure a very wide knowledge of the entire Arctic territory through which he will pass, and to make valuable contributions to civilization on his return. The machines will have sleds instead of wheels.

Watch Your Stomach.

DON'T GET DYSPEPSIA.

Dyspepsia is one of the most difficult diseases of the stomach there is to cure. You eat too much. Drink too much. Use too much tobacco. You make the stomach work overtime. You make it do too much. The natural result is that it is unable to deal speedily and efficiently with its work. It is only a matter of a short time before dyspepsia follows.

Budock Blood-Builders

It is the remedy you require to restore the stomach to a normal, healthy condition so that the food no longer causes distress, but is thoroughly digested and assimilated, and goes on its way making rich blood and bone and muscle.

ROYAL MARKET NEWS

MRS. HOUSEMANAGER: It is quite common for many people to form the habit of buying the same cuts of meat continuously. It may be from lack of knowledge of the various cuts and their uses, or, perhaps, through lack of suggestion. Avoid monotony in preparing meals. There are numerous cuts of meat to select from, and many ways to serve them.

CATER to the EYE as well as the PALATE by garnishing dishes tastefully.

Again, many people have the **FRYING PAN HABIT**, which is expensive, and bad for the digestion. STEWS and the good old fashioned **BOILED DINNERS** are most economical, enjoyable, and healthful, especially for children and aged people. A meal of this kind costs less by one-half than one prepared from the high priced cuts.

The **BRISKET**, generally speaking, is the most **MALIGNED AND ABUSED** piece of meat in the animal. Why? Because so few people understand how to prepare it.

Famous Chefs choose this particular cut for its richness, and distinctive flavor.

The **SECRET is SLOW COOKING** at a low temperature. Five hours is not too long over a slow fire. This applies to any kind of meat for boiling purposes. The slower the cooking, the tender the meat, and less shrinkage.

NOTE—Boiling temperature is 212 Deg. Fahr. A moderate temperature for cooking is from 160 to 180 deg. Fahr. An indication of the temperature is when the water just barely moves.

FLANK STEAK STUFFED

1 Thick Flank Steak; 1 Egg; Salt and Pepper; 1 Cup Bread soaked in water; 1/4 Cup Dripping; 1 Small Onion; 2 Tablespoons Flour; 3 Cups Boiling Water.

Score or pound the Steak. Make a dressing of soaked bread, egg, onion and seasoning. Spread this dressing on the Steak, roll up and tie with a cord, sprinkle with pepper and salt and dredge with flour.

Heat dripping in a frying pan, and brown the steak, roll in the hot fat. Remove meat, add hot water, and let boil two minutes. Pour this gravy over the meat roll, and cook slowly until tender, in a Caserole, Steamer or Fireless Cooker.

If steamed or cooked in the Fireless Cooker, the roll should be browned before serving.

MINISTER DISCUSSES HIS WIFE'S TROUBLES

Rev. A. H. Sykes, former pastor of the Watkins Park Presbyterian church, Nashville, Tenn., says:

"After seeing what Tanaka has accomplished in my wife's case, I am convinced that it is a medicine of great power and extraordinary merit. I do not think I have ever anything give such prompt results. Mrs. Sykes has been in delicate health for ten months, suffering from stomach trouble and nervous breakdown."

"I frequently sought medical advice but Tanaka is the only thing that gave her any relief. After taking the medicine only a short time, she was able to sit up and help with the household

duties. I think it only a short time until her health will be fully restored. Tanaka is sold by leading druggists everywhere."

TRANSPORT FROM NORMAN IS ONLY QUESTION OF FUNDS

EDMONTON, Aug. 22. That the providing of transportation for all from Fort Norman and other northern fields is not a serious problem, but merely a question of dollars and cents, is the opinion of A. E. Robertson, of Alexco, a prominent engineer who is passing through the city. Mr. Robertson has been engaged as an engineer for the last nine years in the Tapan oil fields.

'SILVER THREADS AMONG THE GOLD' AND VAUDEVILLE

At a recent song contest held in Toronto, Silver Threads Among the Gold, the old ballad, was awarded the first prize as the most popular of old songs, this being determined by a vote of the newspaper readers. Its haunting melody, its sweetness and dignified simplicity and heart appeal, have established themselves in the hearts of the people, and now the famous old song has been made into a photo-play and all the sweetness, all of the simplicity have been embodied in the pictured story—it is a true rural comedy drama, with the scenes laid way down east—There are the barn dances, the straw rides, the chicken dinner, the hired man and the hired girl, all making for comedy—and there is no other! This is a mother like all the mothers we have known. She is one who understands, one who helps—and one who forgives. Each of us has had such a mother—some of us are fortunate enough to still have such a mother, and others of us are left to follow her. In Silver Threads, the mother's boy goes away from home, is misunderstood by all but mother, and each night as he is away, she turns down the counterpane of his bed, and kneels beside it—and then one hears the beautiful strains of Where is My Wandering Boy Tonight? It is John Morrison singing, and John Morrison can sing the old songs. Throughout the picture he sings them. At the close of the picture, Mr. Morrison, accompanied by Miss Elsie Clifton, presents his own original comedy, with songs, with special scenery. The attraction will be seen at Angus Theatre for one day, August 26th. Silver Threads comes to Wetaskiwin direct from the New Empire Theatre, Edmonton.

TOWN TOPICS

Mayor Fowler has been confined to the house for several days on account of illness.

Monday, September 24, being Labor Day, is the next Dominion holiday to be generally observed.

The Wetaskiwin schools will reopen after the summer vacation on Tuesday of next week, August 30th.

J. D. Cowan, who has been in Saskatchewan and Southern Alberta assisting hull losses, returned home last week.

Gerrard West who is credit man of the Western Groceries, Saskatoon, is spending his holidays renewing old acquaintances in the city.

About fifteen members of the L.O.O.F. went to Ponoka on Monday evening by auto to pay a fraternal visit to the brothers in that town. A good time is reported.

Jean Robinson, who was in attendance at Westminster Ladies' College, Edmonton, since Easter, was successful in passing Grade VIII examination.

The friends of Edgar Thirk are glad to see him around again after his operation for appendicitis, which took place in the Wetaskiwin hospital three weeks ago.

Mrs. Archie Raulstone left a few days ago for Grande Prairie, where she will spend some time with her mother and sister, who located there last spring.

Messrs. C. Smith, C. D. Enman and Alex. Kank, who went on a holiday trip to Vancouver, returned home on Monday. Most of the distance was travelled in an auto.

Mrs. N. J. L. Bergen left on Saturday for Calgary, where she will visit at the home of her daughter, Mrs. Edgar Rosenroth. She is accompanied by her niece, Evelyn Johnson.

The weather has turned quite warm again, and it appears as though the danger of an August frost is passed. Harvest is in full swing, and the grain in this district will soon be in the stack.

Mr. and Mrs. Matt Johns left on Monday for Nebraska, where they will visit Mr. Johns' father, who is in poor health. They are making the trip by auto, and expect to be away about a month.

Mr. and Mrs. A. E. Wynne and Miss Parker, who have been spending two weeks' vacation at Banff and Lake Louise, returned home on Sunday. They went by motor and returned having had a delightful holiday.

Many of the families which have been camping out at Pine Lake, came back to town the first of week. Among the families returning are those of H. W. Manley, H. W. Wright, C. Elze, C. E. Compton, R. M. Angus, Geo. Graham, Mr. Russell, R. Merner, and F. E. MacArthur.

NEW TEACHERS ON SCHOOL STAFF

The Public and High Schools reopen after the summer holidays on Tuesday morning next, the 30th inst.

The new teachers on the staff are: Miss Margaret Hill of Blackfalds, Miss Jeanette McIntosh of Edmonton, and Miss Hamelin of Otonari.

The teachers who resigned were: Miss Bertha Robertson, Miss Margaret Robertson and Miss Lela Miner.

Sam Levine has been bothered lately with throat trouble and surgical treatment was found necessary. Sam is feeling better now, but has been confined to a rather light diet—Days and Press.
